

Product Information

Fiber optic panel BKT VENI-2-DATA

Card No.: PI_FO_panel_BKT_VENI-2-DATA_11112DXXXX.XV_01.23

* Exemplary configuration

Application

The series of VENI-2 fibre optic products is designed for the most demanding customers. The increased functionality of the panels combines state-of-the-art design with quality manufacturing materials.

The VENI-2 fibre optic panel is an essential connectivity component in all networks when proper protection of transmission infrastructure is of great importance. It is intended for quick crossing of connections between distribution points. The perfectly arranged base of the panel, in combination with a wide range of additional accessories, makes this the perfect solution for Data Center systems and wherever connection of optical fibres under difficult installation conditions is required.

As a total solution our VENI-2 fiber optic panels are also available fully equipped with pigtails, adapters and splice trays. This fully loaded version dramatically reduces installation time in new or existing telecommunications networks.

Features

- Adjustable handles 19"
- A wide range of front plates for various types of adapters, prepared for lock assembly
- Raised slots in base for mounting cables and tubes with different outer diameters
- Holes in the base for one- or two-point assembly of splice tray
- Front plates equipped with metal captive screws
- Four rear cable entries
- FRP rod termination point
- Optional patch cord organizer
- Colour: black or grey
