Product Information

Horizontal cable organiser 19" BKT, 1U, black, plastic holders

Card No.: PI_11140932_01.21

Application

Horizontal cable management 19'' enables attaching of cables and wirings inside the cabinet and their arrangement between the patch panels. The horizontal cable management is essential in telecommunications cabinets because it allows for maintaining proper organization and order in structural cabling.

Features

- Universal horizontal cable organizer 19" with a height of 1U for use inside of telecommunications cabinets.
- 5 universal brackets support the organization of cables, and provide appropriate route for horizontal structural cabling.
- The possibility to lead the cable through both the top as well as the right and left sides of the organizer.
- The possibility of installing cable organizer in both the front and rear of the cabinet.
- Ensure proper bend radius for management cables.
- Colour black color RAL 9005.
- Dimensions (H x W x D) – 43,6mm x 482,6mm x 88,5 mm

Standards

- EN 50173-1
- EN 60297-3-100
- ISO/IEC 11801
- IEC 60297-3-100
- ANSI/TIA-568.2
- EIA-310-E
- RoHS 2011/65/EU

RoHS COMPLIANT
