

Product Information

BKT RJ45 ID Tag

Card No.: PI_1133A11X_01.20

Application

BKT RJ45 ID Tags are used in structured networks to divide them according to user preferences. Thanks to the use of 8 colors, each network can be divided into up to 8 individual sections, e.g. local area network, WiFi access points, CCTV, access control systems, telephone, intercom, etc. BKT RJ45 ID Tags have been constructed so that they can be mounted in the BKT RJ45 keystone modules and BKT Elektronik angle adaptors.

Features

- Possibility to divide networks by color
- Available 8 colors
- Can be mounted in new BKT RJ45 keystone modules and angle adaptors index: 11330566 and 11330567
- The product is sold in 50 pcs package

Standards

- RoHS 2011/65/EU
