

Product Information

Patch panel BKT 19" 0.5U, modular, shielded, 24xkeystone, black

Card No.: PI_11305117_01.21

Application

BKT patch panels make it easier to manage the network infrastructure and take care of their aesthetics. The 0.5U crossover panel has been specially designed to maximally pack in the cabinets the toolless BKT RJ45 keystone modules, allowing to increase the equipment of the ICT cabinets by 100%. Thanks to its construction, it finds application in Data Centers and server rooms. Thanks to the use of colorful description fields, they facilitate network management.

Features

- Modular patch panel 19" with a height of 0,5U for mounting tool and tool free Keystone BKT modules
- Possibility of mounting up to 24 shielded and unshielded Keystone BKT modules
- Replaceable paper labels available in 5 colors
- Integrated cable organizer for holding cables using cable ties
- Metal construction ensuring galvanized connection with module shielding
- Grounding wire
- Black color RAL 9005
- Dimensions (H x W x D) – 22,2mm x 482,6mm x 150mm

Standards

- EN 50173-1
- EN 60297-3-100
- ISO/IEC 11801
- IEC 60297-3-100
- ANSI/TIA-568.2
- EIA-310-E
- RoHS 2011/65/EU

Product Information

Patch panel BKT 19" 0.5U, modular, shielded, 24xkeystone, black

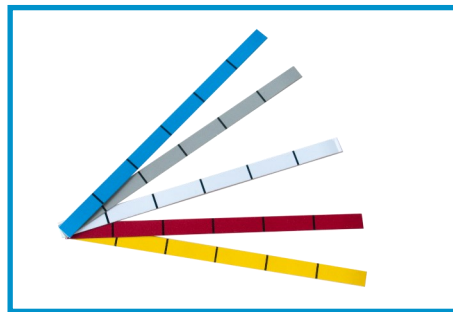

Card No.: PI_11305117_01.21

Special features

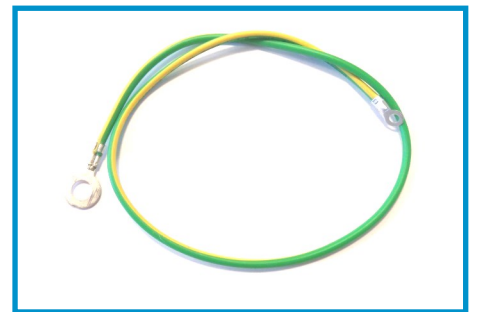

The possibility of mounting all BKT RJ45 keystone modules shielded and unshielded

Interchangeable labels available in 5 colors. They facilitate network management

The set contains the grounding wire ended with „eye connector” on both sides

Dimensions

22,2mm x 482,6mm x 150mm (0,5U)

Metal construction ensuring galvanized connection with module shielding

Integrated cable organizer for fixing cable with cable ties
