Product Information

ATS Basic BKT 1U 19" 8xIEC320 C13 + 1xIEC320 C19, plug 2xIEC320 C20
No. Card: PI_1134A4.08-2,01-6S_01.20

BKT Elektronik has launched a product that provides redundancy and uninterrupted operation of network devices. ATS switches between power lines in no more than 16 ms for load up to 16A current, not interrupting the operation of connected devices. When there is a power cut at Input A, the ATS automatically switches to power supply from Input B.
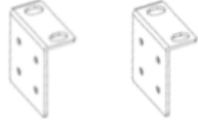

ATS can be applied in server rooms, data centers, telecommunication and many other areas where uninterrupted power supply is a must.
