

Product Information

BKT Flood sensor

No. Card PI_1134CWS01_01.16

The BKT flood sensor allows for early detection of water presence in every place where the risk of water logging occurs. The sensor sends an alarm signal when the water level is 1 mm above its test surface.

Features

Index No.	1134CWS01	
Description	BKT flood sensor	
Cable length	5m	
Cable Termination - plug	RJ12	
Power Supply - DC	12V	
Working conditions	Temperature	0°C ÷ 55°C
	Humidity	10% ÷ 90%
Response time [ms]	≤50ms	
Additional	Power consumption during an alarm state: <25mA	
	Water level triggering the sensor: 1 mm above the surface	
Installation	Surface	

Standardy

- EN 61326-1:2006
- EN 61000-3-2:2006
- EN 61000-3-3:2008

Warranty

Standard warranty is 2 years.
